

Gradeon Corporate Deck

About Us

Gradeon is a consultancy which specialises in digital solutions for business. From our Southampton offices, our dynamic, expert team is able to work in close collaboration with clients all across the globe. We design cutting edge IT systems and radical upgrades. We devise automation processes to increase the efficiency and effectiveness of security, compliance, governance and risk management. We develop strategies for change to maximise the benefits of leading-edge digital technology. We supply highly skilled personnel for specific projects tied to short deadlines. We ensure the seamless integration of all these innovations into the client business, providing full training and upskilling services as well as monitoring, assessing and reviewing all outcomes of the consulting process. We equip you with the tools for growth and the policies and practices to use them to the full.

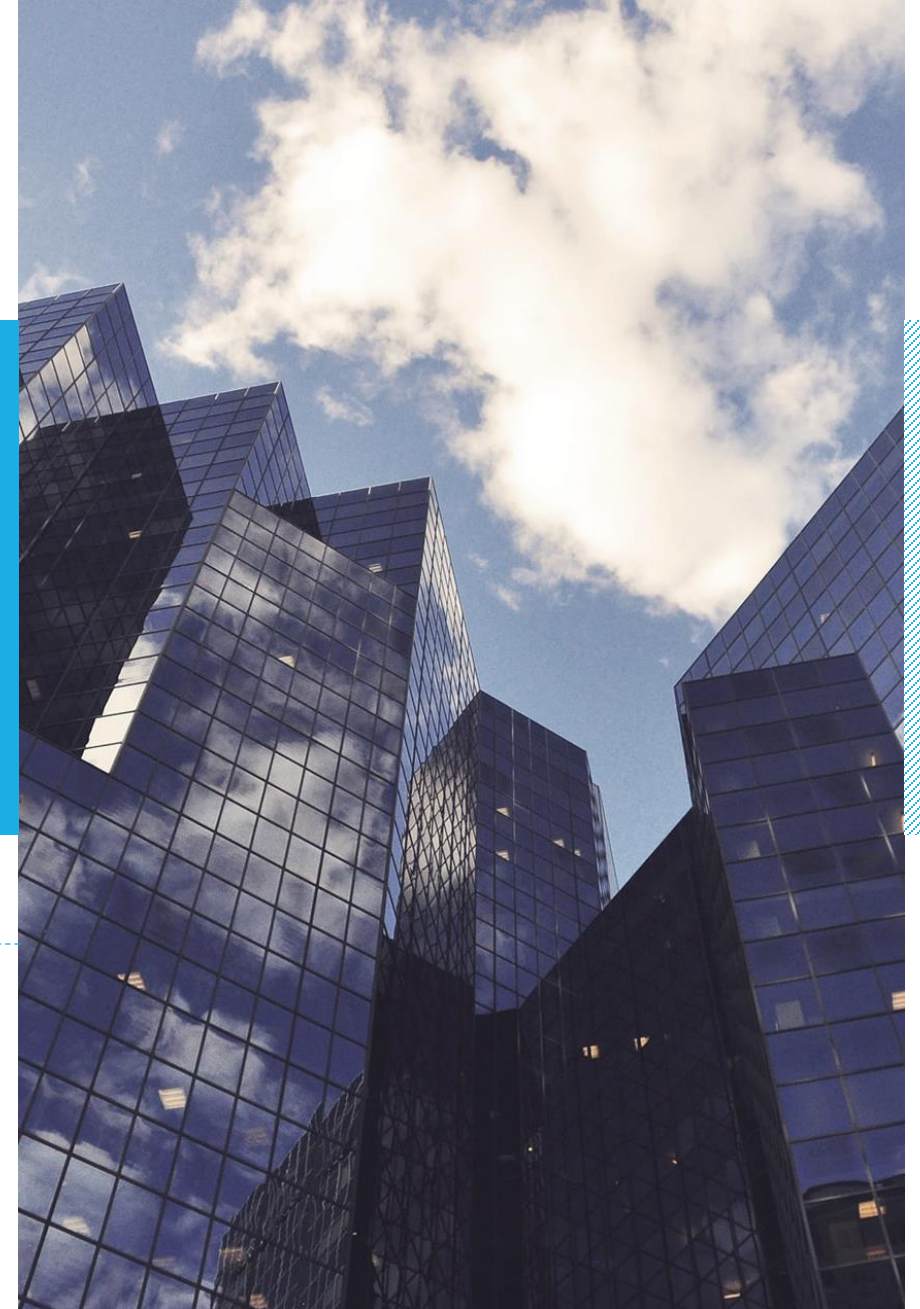

We audit your current digital capabilities to identify and implement upgrades and improvements.

We devise strategies to optimise your internal processes and communication with partners and customers.

We develop a fully compliant regime which protects data and finances from theft, fraud and accidental loss.

What We Do

We have spent years developing and honing our holistic Consultancy as a Service package. We present answers that are clear, simple and effective. Everything we do is focused on the needs and aspirations of our clients so that we are matching solutions to challenges at every stage.

COMPLIANCE & SECURITY

No solution is complete without alignment to compliance and regulatory factors including cyber security services.

DESIGN & DELIVERY

Digital maturity, Cloud, RPA, Ai are all the latest buzzwords. Whatever your strategy, Customer and End User Experience is everything.

IT STRATEGY

For our IT Strategy consultants it's all about your business. We provide comprehensive tech strategies aligned to your business vision for growth.

WORDS FROM CEO

Allen Sinclair
Chief Executive Officer

Marching With a Mission of Digital Transformation

At Gradeon we understand the power of transformation. Our mission is to revolutionise the relationship between business and IT, delivering innovative solutions to help our clients meet and exceed their aspirations. We put your business at the centre of everything we do, working in synchronicity with you, your employees and your partners to understand your goals, values and potential. Our ever-expanding network of pan-disciplinary consultants delivers world-class expertise to conquer every challenge and harness the forces of change.

Vision

The contemporary business world is full of companies who enjoy immense success but whose true growth potential lies untapped. Productivity is high. Profitability is healthy. But there is an even brighter future beckoning.

Mission

We are a high-tech consultancy whose clients have benefited immeasurably from our advice and strategic initiatives. We take our clients on a journey into new territories where the advances of the digital revolution can be harnessed in the service of efficiency, growth and profit.

Business Goals

In strict observance of your stated objectives, we develop strategies for transformation and growth, managing ideas from conception and delivery through to live operation.
